

EXTREEMA® EP series protection

Protection for your lifting equipment!

The main application for our EP-series is the protection of lifting equipment and the object that will be lifted for a safer lifting operation.

The protection can be mounted on synthetic round slings, webbing slings, steel wire rope & chains, lashings and synthetic ropes.

With Extreema® protection round slings and webbing slings have a significant longer life span and they will make your working conditions a lot safer.

We offer different options for Extreema protection sleeves:

- ✓ EP-L Extreema® Protect (with or without Velcro)
- ✓ EP-XL and -XXL Extreema® Protect
- ✓ EP-C Extreema® Protect (with or without Velcro)

Each protection sleeve can be used in combination with our Extreema® round slings.

EP-L protection

EP-L protection is made from 100% Dyneema®, the world's strongest fiber™. The color is white. It can be delivered with or without velcro and in various dimensions. It is easy to take on and off and the perfect solution to protect your sling.

EP-XL and -XXL protection

Extreema® EP-XL & XXL sizes are the perfect solution to protect your sling in contact with sharp edges. They are made of 100 % Dyneema® and can be delivered in various dimensions. The color is white.

EP-C protection

EP-C protection is made from 100% Cordura®. This super-durable fiber is as primary ingredient in many of the world's leading high-performance gear. It is known for its resistance to abrasions, tears and scuffs. The color of EP-C protection is black. It can be delivered in various dimensions and with or without Velcro.
